CARTON ERECTING MACHINES 05-01

CET40-SV-*

- **Fully Automatic Servo Carton Erector Machine:**
- Designed to support various carton specifications for versatile use.
- Features a **vertical material trough** to store more cartons, reducing the need for frequent replacements and adjustments.
- **Advanced control and drive** - Equipped with electric eye automatic sensing and servo control for faster and more stable unpacking.
- **High-speed operation** - Unpacking speed of **12 cartons per minute**.
- **Safety and convenience** - Includes a safety protection door; tape can be replaced easily when the door is open.
- Automatic alarm prompts for broken tape or no tape.

MODEL	CET40-SV-*
Carton Opening Speed	12 cases/min
Carton Size	L270-450×W150-400×H100-400mm
Power Supply	220V 50Hz 1 Phase
Power	2050W
Adhesive Tape Width	60mm(3) /75mm(4)
Carton Storage Quantity	80-100pcs (800-1000mm)
Air Consumption	450NL/min
Air Compressing	6kg/cm ³
Table Height	620-50mm
Machine dimension	L2100×W2150×H1750mm
Machine Weight	450KG
