

Auto High-Speed Vertical L-Bar Sealer and Shrinking Packaging Machine

The auto side sealing shrink packaging machine is a high-speed vertical up and down sealing and shrinking packaging machine designed for the refined production of cosmetic films. Mainly for high and thin products, it can automatically complete the steps of feeding, film wrapping, sealing and cutting, shrinking, etc., to ensure that the sealing line is in the middle position, automatic film blowing, and the sealing line is thin, suitable for POF film and cross-linked film. The heat shrinkable packaging effect is beautiful, smooth and wrinkle-free, without personnel operation, the packaging speed is 5-60 Pcs/min, and the work efficiency is high. This sealing and shrinking packaging machine are also suitable for printing, colour box, medicine, daily chemical, auto parts, food and other industries.
