Perfume Filler, plug and Capper

Parameter	Value
Main motor power	1KW 220/380V Frequency control
Production capacity	30 - 50 pcs/min
Filling volume	5 - 120ml
Filling Accuracy	≤±1%
Dimension	1750×1650×1820mm

The PPPF-50Y is designed for the filling and capping of perfume bottles, glass vials, spray bottles, and other small containers.

It features automatic bottle detection, adjustable filling volume, negative-pressure filling for consistent liquid levels, and automated spray pump placement and capping.

Suitable for cosmetic, pharmaceutical, chemical, and other liquid filling applications, its compact design is well suited for small- to medium-scale production.
